

# STEPONE-TEACH THE WORLD ONLINE

THASNI MOL K.A, S5-65  
Department of Computer Applications  
Rajiv Gandhi Institute of Technology, Kottayam

The Stepone is an online learning and teaching marketplace aimed at professional adults and students. Stepone Website is for sharing study materials as videos in Malayalam English. teach the world online connecting instructors with students around the world. By connecting students all over the world to the best instructors, Stepone is helping individuals reach their goals and pursue their dreams. Students take courses largely as a means of improving job-related skills.

Udemy is an existing American Based existing massive open online course provider ,But sharing study materials as videos in only English. instructors can upload videos into website and they can earn payment according to the view count.

But study materials in malayalam is not available also the instructors need to identify the requirements of viewers. so that admin or instructors can view the sorted list of user requirements and can add more videos based on users need. also chat bot is available in Stepone. All the control is under the administrator.
