HESTIA HOSPITAL

THASNI MOL K.A, S5-65

Department of Computer Applications

Rajiv Gandhi Institute of Technology, Kottayam

The project Hospital Management system includes registration of patients, storing their details into the system and also computerized billing in the pharmacy and labs. All the details are protected with security algorithms.

This proposing system helps to automate the process of day to day activities of Hospital which includes Room activities, Admission of New Patient, Discharge of Patient, Assign a Doctor and finally compute the bill etc. All the control is under the administrator.

Patient can register using his/her details. Patient can login into the system using the given details during the registration process. Patient can book an appointment with the suitable doctor on their convenient time
